Web & Backend: Node.js, Express, JavaScript (ES6+), React, REST APIs, HTML5, CSS3, Tailwind, Bootstrap

Databases & Tools: MongoDB, SQL, Postman, Git, GitHub

UI/UX & Design: Figma, Adobe XD, Responsive Web Design

WORK EXPERIENCE

5ELK

Cebu City, Philippines

Zoho Specialist

July 1, 2026 – Present

- Architect, implement, and manage complex enterprise workflow automations across the full Zoho product suite.
- Develop high-performance Deluge scripts, custom functions, and webhook integrations connecting Zoho to external databases.
- Lead technical initiatives to optimize cross-departmental operations, data security, and system reliability.
- Collaborate directly with cross-functional leadership to align custom system capabilities with strategic business targets.

IT & Systems Developer

March 13, 2026 – July 1, 2026

- Engineered and maintained internal systems, ensuring seamless data flow and process automation across operations.
- Built custom API integrations and automated bridges between Zoho applications and 3rd-party web services.
- Monitored platform uptime, performed performance tuning, and resolved critical backend data bottlenecks.

Jr. IT / Web Developer

2024 – March 13, 2026

- Customized Zoho platforms and implemented automated trigger-based logic using Deluge scripting.
- Integrated REST APIs with web applications to deliver real-time data synchronizations and functional utilities.

Mabolotech

Cebu City, Philippines

Front-End Web Developer

2022 – 2024

- Designed and built responsive, dynamic web applications using React, JavaScript, and Bootstrap.
- Partnered with backend engineers to consume RESTful endpoints, ensuring seamless frontend-backend performance.
